Dear Elector,

I would be very proud to be elected and act as your councillor, but I need your help.

If you agree that the District Council could be run much better then why not give me a chance. If you were affected by the Council Decision to grant planning permission to build a permanent gypsy site on the Red Common then I am the person to elect.

Do not let the same old people represent you when they have let you down so many times in the past. I deserve better.

The gypsy site permission was only carried because all the controlling group of councillors were told how to vote by their political party.

If elected I, as an Independent, will only vote the way you want me to. Help me by voting for me on polling day

Yours truly,

Vivien V Gogh
